

Eco-Club Minutes

18/05/2016

All committee members present

In today's meeting Mr Aspden told us about meeting he had with United Utilities about a pilot project they wanted Kinraig to join called FOG.

The details were:

- FOG stands for Fat, oils and grease
- This is a big problem in Blackpool where lots of FOG are deposited down the sink
- United Utilities would provide Kinraig with a FOG recycling bin and funnels for every child to collect FOG from home
- It would be a competition between 5 schools and the school that collected the most FOG per student would win a £1000 for their eco-club
- United Utilities would come in and do an assembly explain to the school what it was about

The Eco-club have decided to go ahead with this project and have asked Mr Aspden to contact United Utilities.
