

INCOME 2016/17

2016/17 Receipt of Sports Premium

This is funding which was given to every maintained school in the country by the Government, to allow schools to build a legacy for the Olympic Games and to ensure that all staff were appropriately trained, links were made with local clubs and activities planned for the children to ensure that they stay fit and healthy, especially for those who wouldn't normally engage with PE and Sport.

This academic year, Kincaig decided to spend its Sport's Premium money on developing children's health and well-being. Research has shown that developing social, emotional and behavioural skills can result in a wide range of educational gains, including better problem-solving skills and higher levels of motivation and morale across the whole-school community.

The government are also looking at the different approaches to Physical Education, ensuring children complete rigorous fitness programmes, developing their levels of fitness and endurance and improving stamina. In order to achieve this, we have continued to run the Dfe supported Commando Joe's programme, focusing on individual's fitness levels and stamina. Last year we implemented a programme whereby the children began to develop these skills, however staff felt more work needed to be done and this year we have continued the programme making it more structured.

Developing staff knowledge and understanding:

Each half term, Commando Joe will work with one particular year group;

| Autumn 1 | Autumn 2 | Spring 1 | Spring 2 | Summer 1 | Summer 2 |
|----------|----------|----------|----------|-------------------------------|----------|
| Year 2 | Year 1 | Year 3 | Year 4 | Year 5 Reception 1 hour | Year 6 |

Every Thursday within that half term, Commando Joe will work with the individuals on developing their fitness and stamina levels, whilst teaching them a progressive scheme of work around orienteering, map skills and exploration. This will support the outdoor, adventurous activity element of the national curriculum. Staff will work with Commando Joe, developing their understanding and generating new ideas to develop and increase fitness levels. The staff will then develop this with their classes and take it forward.

Developing children's abilities within Sport:

Commando Joe will design specific programmes for each individual class, depending on their needs. The programmes will look at developing children's fitness and stamina. It will promote a positive attitude towards staying healthy and encourage them to have confidence when working independently or as part of a team. The Commando Joe motto is, 'No Child Is Left Behind.'

Alongside weekly sessions within class, Commando Joe will also run before and after school fitness classes for children across school. These sessions will promote a healthy lifestyle and develop children's fitness levels. Activities will range from team building exercises to developing co-ordination and control through independent activities.

EXPENDITURE

Commando Joe Sessions – £6,000
