

Places to visit

Stanah Country Park has a variety of different habitats to explore, like woodland, fields or grasslands and paths running next to the estuary.

If you are able to travel a little further, Brockholes, near Preston, is also a great place to explore different animals and minibeasts and find out about their life cycles.

Useful Websites

BBC Bitesize—Great website with information from our topics and support for maths and English.

Topmarks—Lots of maths and English games at different levels. Good games to help prepare children for their SATs.

Things to do

Look at planting some different seeds. These could be planted outside in the Spring or start them growing inside. Cress is always good for a quick look at how seeds grow into plants.

You could try making a weather station with your child to record the weather and learn about different climates.

Life Cycles

Year 2
Spring Term

Life Cycles

Geography/History

During our Topic this term we will be looking at our local environment in detail. We will identify different features of our environment and keep a record of the weather. We will also look at the lives of Florence Nightingale and Mary Seacole.

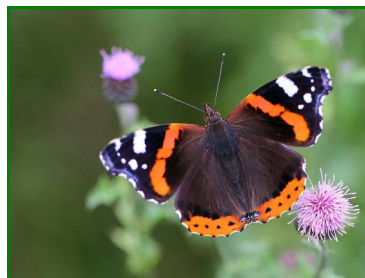

Art/Design Technology

During Art we will look at using different materials to make our own collage. We will also design and make our own puppets using textiles.

PSHE

In PSHE we will think about our Feelings and Emotions and Growing and Changing. We will think about being friendly and look at how we grow up.

Maths

In Maths we will improving our mathematical knowledge by focusing on Multiplication and Division, Tally charts and Pictograms, Shapes, Fractions and Measurement including Length and Height.

English

In English this term we are looking at the stories, Jack and the Beanstalk and The Tale of Peter Rabbit. We will also look at information texts about Florence Nightingale and write shape poems themed on animals and bugs.

Science

The Science topics this term are Animals including Humans and Plants. We will look at life cycles of different animals and find out about how plants grow.

Music

In music we will be learning through our two units, I Want to Play In a Band and Zoo Time.

Computing

In computing we are learning to send emails and open different attachments. We will also use software to collect data .

PE

Our topic during this term is gymnastics. We will make up our own routines, work in groups and think about moving with control.

RE

In RE we will focus on Hinduism and Islam this term. We will find out key information about the faiths and focus on the belief of God in each of these religions.
