

Places to visit

The Museum of Science and Industry in Manchester is great for children with lots to see and do. It also has different planes from the past to look around and see.

Jodrell Bank Observatory is a radio telescope in Cheshire, with a visitors centre. If you are able to visit here you will find out about how it is used to explore deep space.

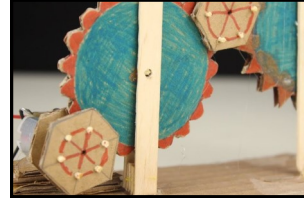

Useful Websites

Education Quizzes—A website with questions and answers, and cover the all the subjects on the curriculum.

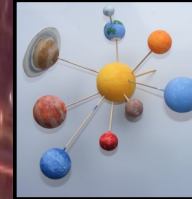

IXL—IXL have separate pages of skills linked to individual Year group. The Y5 page has links to practise both English and Maths skills.

Things to do.

Can you make a toy or game using moving mechanisms, such as gears or cams.

To help learn about the planets in the Solar System you could try making your model.

Try making a collage picture using different materials, like this Earth picture.

A Time Traveller's Adventure

Year 5 Spring Term

Come to our Parental Showcase on Thursday 2nd April—2.30-3pm

We are Learning

Maths

In Year 5 we are looking at multiplication and division. We will look in depth at fractions and start to have a greater understanding of decimals and percentages.

English

In English this term we are looking at classical literature, reading Alice in Wonderland. We will also look at Biographies and Explanation texts, learning to write using the correct features.

Science

The Science topics this term are Earth and Space and Forces. During the term we will look at day and night and the seasons. We will learn about the moon phases. When looking at forces, we will focus on levers and pulleys and the changes in these forces.

Geography/History

Our second topic in Year 5 is called a Time Traveller's Adventure. During the term we are going to be finding out about amazing inventions that have changed the world we live in.

Art/Design Technology

In Art and DT we will be learning to use Batik to create our own pieces of work. We will also use watercolours and learn about using pneumatics to make moving mechanisms.

Computing

In computing we will be finding out about encryption and thinking about cracking codes. We are also going to learn about 3D design and use software like an architect.

PSHE

During RSE we will be looking at Healthy living and finding out about choices we can make. Also, we will learn about Growing and Changes, where we will start to think about different changes.

French

During the Spring term in French we will revise some common words we know and start to build simple sentences using the first and third person.

Music

In music we will be looking at pop-ballad songs, learning to sing the song Make You Feel My Love. We are also going to look at hip-hop music, focussing on the song, The Fresh Prince of Bel Air.

PE

During Spring term, we will be doing gymnastics and games. We will look at moving with control in gymnastics and start to play as part of a team in netball.

RE

In RE we will be finding out about Hinduism focusing on the stories of Krishna. We will also look at Christianity and find out about miracles from Jesus.
